Bible Storytelling

Learn how to share the Bible in a non-confronting form with old and young alike. You will learn how to craft and tell a story and how to lead a Bible study from your story.

These skills are also used in Oral Bible Translation. If you are interested in visiting a language group, this workshop will be great preparation for working with the community.

Workshop Content

Each workshop can be tailor-made to your church's context. However, the more time you can give to cover the content, the fuller the experience will be.

A full workshop covers the following areas:

1. Crafting
2. Revising
3. Telling
4. Teaching
5. Leading
6. Practical

Various topics are integrated throughout these areas, such as attitudes for ministry and facing your fears. The bare minimum for a workshop consists of crafting, revising, telling, and practical, which takes up to 8hrs. Some template timetables are available at the bottom of this document.

Workshop Requirements:

- Between 12-24 participants, preferably including some church leadership.
- Wycliffe asks for R150 per person for workshops in Joburg and Pretoria. This includes the price of a manual for each participant (amount is negotiable under certain circumstances).
- Any drinks or food that is offered during the workshop to be provided by the church.
- Venue with seating available.

Wycliffe promises to:

- Provide you with a design for advertising the workshop.
- Work with your church to find the best date and timings for the workshop.
- Be available to meet in person or over zoom to discuss the workshop.
- Be available to visit your church to share about any area of Bible Translation.

If you are interested in hosting a workshop, please complete this form: bit.ly/bible-storytelling-form
